

# MamaBear LadyWear Quick-Dry Menstrual Pads

Pads fold out completely to allow them to get fully clean all the way through and to dry quickly and thoroughly so you won't get bacterial growth, bunching of layers, or odors that you might experience with other thick all-in-one pads.

Durable Nylon Professional-grade snaps will last the life of your pad!

The pad soaker folds in along stitched lines to provide a triple layer of absorbency. Edges are serged to minimize bulk and provide soft edges.

The wings snap around your undergarment. Most pads can be used with the soaker portion against the body or the undergarment depending on personal preference (pads with waterproof linings can only be used one way).

Pads fold up into a discreet envelope you can easily tuck into your purse, a pocket, anywhere! They are so cute you'll love carrying them around and won't need to hide them like disposables, they look like little coin purses!
